NUMBER 193.

STRATHCONA MAN AFTER MAYOR

Claims Mayor May Frightened His
Horse By Furlous Motoring

Strathcona Plaindealer: On Sunday afternoon last Mr. and Mrs. J. C. Tipton had a very narrow escape from serious mishap while driving out to Mr. Bishop's to visit Mrs. Gould who died yesterday. They had a lively rig from Walworth's stable and fortunately a quiet horse not easily excited. They had the buggy top up and the back curtain down. As they were driving along in the vicinity of Mr. Tipton's farm, suddenly Mr. Tipton turned abruptly out and narrowly escaped the hind wheel of the buggy. Brushing swiftly passed the chauffeur turned his car so quickly again toward the centre of the road that a button on the top caught the bit ring of the frightened horse. The car was going at a furious rate and something had to give. The bit broke and the ring with the line still attached hung to the car and was pulled unceremoniously from Mr. Tipton's hand.

The horse was nearly knocked over and became frantic. He ran with all his might after the retreating car. Mr. Tipton having but one line and no bit to control him. Instead of stopping to assist his neighbor or to ascertain what damage his reckless driving had done Mayor May of Edmonton (for the motorist was no other than he) put on steam and was soon out of sight. Fortunately Mr. Tipton got his horse under control before more serious damage was done than a severe nervous shock to himself and wife who were certainly in a perilous position. Mr. George Manuels following with other gentlemen in another car played the good Samaritan and assisted Mr. Tipton to get his outfit in shape to go home. Mayor May was on his way to Cooking Lake having President Mackenzie and other members of his party in his car and was evidently trying to do the Van Horn scorching stunt between Edmonton and Cooking Lake as an object lesson for his friend the president of the C.N.R. Mr. Tipton has brought an action against Mr. May under the statute passed at the recent session of the Provincial Parliament regulating the speed and control of automobiles.

GOV.-GENERAL COMING WEST

Lord and Lady Grey Left Ottawa En
Route West.

Fort William, Aug. 23.—Arrangements are being made by civic authorities to entertain Lord and Lady Grey, who will spend Friday here.

Ottawa, Aug. 23.—Lord and Lady Grey and suite left for Winnipeg this afternoon, two days earlier than expected. A special engine will convey them as far as North Bay, where they will overtake the westbound Imperial Limited. Their Excellencies returned from Quebec at noon today.

WOMAN CLOSELY ESCAPED DEATH

Saved From Under Wheels of Moving
Train by President of Board
of Trade.

(Special to The Bulletin.)

Strathcona, Aug. 22.—What almost culminated in a tragedy was narrowly averted by Mr. O. Bush yesterday afternoon.

While a train was crossing Whyte avenue, a young woman was observed to be making an attempt to cross in front of the engine. Several persons warned her, but she persisted, and unconscious of her danger, kept on, when within a few feet of the engine she appeared to get excited and lost her head. Fortunately Mr. O. Bush, president of the board of trade, saw the woman's peril and rushed forward and dragged her off the track just in the nick of time.

But for Mr. Bush's timely intervention the woman would have inevitably been struck down and probably killed.

DECLINED THE WINNIPEG RISK

City Takes Action to Increase Water
Pressure for Fighting Fire.

(Special to The Bulletin.)

Winnipeg, Aug. 23.—This afternoon a telegram was received from the head Canadian representative of two large English insurance companies, turning down most emphatically an application for additional risks. The telegram stated that in view of the recent investigation of the companies in question did not think it advisable to increase their liabilities in the business section of the city. Another company with head offices in Toronto has reinsured with the United States companies 50 per cent. of its Winnipeg business. This is a precaution against the maximum loss in case of fire.

TO INVESTIGATE THE DROWNING

Employee on Manitoba Dredge Fell
Overboard.

West Selkirk, Aug. 23.—Thomas Hellar, an employee on the government dredge, was drowned in Lake Winnipeg, near the mouth of the Red River this afternoon. He was engaged in unloading one of the mud scows when he accidentally slipped overboard. Before assistance arrived he was drowned. The body was grappled for and found shortly afterwards and brought to Selkirk. The coroner was notified and an inquest will probably be held tomorrow. The deceased worked here about two years at the dredging trade and was only on the dredge a short time. He came to this country from Glasgow where a wife and two children now live.

PLAYING STAR ENGAGEMENT

The Popular Gilbert & Sullivan Op-
erors Find Same Favor That Has
Made Them Famous.—Martha
To-night.

The Russians are playing a star engagement at the Thistle this week. Wednesday's rendition of the old favorite, "Mikado," brought out a large audience and last night they had a crowded house to hear "Pinafore." In both cases the company got out of the operas all the money and a very large percentage of the music that Gilbert and Sullivan put into them. Both the Mikado and Pinafore have always been popular, and apparently they always will be and the "Lord High Executioner" or "Dick Deadeye" enacted by Arthur Burgess could not fail to bring down the house in any company at any time.

The company plays "Martha" this evening, the star number of their engagement, and to-morrow evening will play Gilda-Gerda. There will undoubtedly be a rush for tickets this evening.

A VETERAN GONE

(Special to The Bulletin.)

Virden, Man., Aug. 21.—William Stephen, one of Virden's oldest residents passed away today, aged 71. He came from Dufferin, Scotland to Manitoba in 1885.

MAY DIVIDE THE LAND

Russian Government May Appear
Land Hunger by Dividing Land
Among Peasants.

(Special to The Bulletin.)

St. Petersburg, Aug. 24.—An important series of conferences last night at Petersburg on the question of immediate distribution of Crown lands to peasants in an attempt to find a partial solution of the agrarian question by measurably appeasing the land hunger of the peasantry. The Associated Press is now in a position to announce that the government has definitely decided to proceed with the original plan for settling the agrarian question regardless of parliament and go to the country upon the issue in the coming election.

Helsingfors, Aug. 23.—Liberty of speech, and of meeting and of organization has been granted throughout Finland. The Diet some time ago passed a bill granting these privileges to the Finns and the Czar signed the measure today.

Berlin, Aug. 23.—General Kuropatkin commander in chief of the Russian army in Manchuria until after his death at Mukden, has been summoned to St. Petersburg by the Czar to resume the position he once held as minister of war. He is to reorganize the army.

SIX TO NAUGHT WAS THE SCORE

Calgary Shut Out Wetaskiwin In
Yesterday's Game.

Calgary, Aug. 24.—Wetaskiwin again got shut out in the second game of the series with the Calgary hockey yesterday afternoon at the Exhibition Grounds, the score standing at the close of the game six to naught, just one more than Wednesday's score. The boys from the north changed their batting order and fielding positions a trifle different from the game on Wednesday, but it made no better showing and could not be called an improvement. Pittman again essayed to do the trundling for Wetaskiwin and pitched good ball at the time, though he did not get the support he should have got, as his side got six errors chalked up against them and some proved costly. Kinnear was there with the goods and only allowed four hits. His control, like Pittman's, was also good, each pitcher only passing one man. Kinnear proved aptitude to the Wetaskiwin bunch and the way he struck out the north boys was highly pleasing to the fans, as twelve clean strike-outs in one game is something would have been fatal.

SHOOTING ACCIDENTS YESTERDAY

A. L. Vardon, proprietor of the Vardon machine works, was seriously injured by a gun-shot wound and miraculously escaped being fatally wounded. He was returning to the city along the Fort road, with a companion, when the horse, taking fright at a bicycle, ran away and upset the buggy. Mr. Vardon must have reached the ground about the same time that the gun did. Mr. Vardon hit on his head and shoulders and just about the same instant the gun exploded. The shot struck Mr. Vardon a glancing blow in the back, plunging its way to the shoulder blade and splintering the bone. Had the charge struck him at a different angle the result

RE-BUILDING VALPARAISO

City Resuming Normal Conditions.—
Casualty List Still Uncertain.

Valparaiso, Aug. 24.—The work of rebuilding the devastated section of the city and the surrounding country by the earthquake last Thursday is being pushed forward rapidly. Normal conditions are prevailing and the inhabitants are again devoting their energies to business affairs. The estimates of the dead are still unreliable, ranging from 300 to 2,000.

London, Aug. 24.—The fund for the relief of Valparaiso sufferers now totals \$116,325. N. M. Rothschild and several other large firms contributed \$10,000 each to-day.

INJURED BY DYNAMITE

C. P. R. Workman Badly Injured by
Premature Explosion in Rock
Cutting.

(Special to The Bulletin.)

Port Arthur, Aug. 23.—An explosion of dynamite from an unknown cause, resulting in the serious injury of one man and the wounding of two others, occurred at Pearl, near Schreiber. Nick Muller, the man whose injuries are most serious, is now in St. Joseph's Hospital. A gang of men, engaged in C. P. R. blasting operations, had exploded a hole for the purposes of enlarging the cavity in the rock in which the intention was to later discharge a blast of much greater capacity. The explosion in the first or small hole took place at the appointed time and the men proceeded to go about the work of preparing for the big blast, when, without warning and totally unexpected, an explosion occurred in the midst of the gang. The force of the blast was received almost entirely by Nick Muller, Angel Thomas, and Joe Sanby, all of North Bay.

HARVEST AT VEGREVILLE

(Special to The Bulletin.)

Vegreville, Aug. 23.—Wheat cutting is still in progress. Barley and oats are also being cut. Indications are for good yields of all grains. Very little rain and no damage by frost.

GRAIN PRICES

(Special to The Bulletin.)

Winnipeg, Aug. 24.—No. 1 northern 76 1/4; No. 2, 73 3/4; No. 3, 68 1/2; No. 2 white oats 30 1/2; No. 3 barley 39; No. 1 flax 1.03.

CHEAPEST IN THE WORLD

Grand Trunk Pacific Will Be No Ex-
travagant Affair.

Ottawa, August 24.—Collingwood Schreiber, chief consulting engineer for the Government, who has just returned from the West, says the G. T. P. will be the cheapest transcontinental line in existence. Schreiber says the rails will be laid for one hundred miles west of Winnipeg before winter sets in.

12,000 ONTARIO HARVESTERS

(Special to The Bulletin.)

Toronto, Aug. 24.—The number of people caused by Ontario on Western harvesters excursions up to date is 12,582, nearly 2,000 more than for the corresponding period of last year.

ABOUT THE WESTERN CROPS

Heat Damaged Manitoba Wheat But
Not Seriously.

(Special to The Bulletin.)

Winnipeg, Aug. 23.—The weekly crop report issued by the C.P.R. shows that in practically all sections cutting has been done, in some as much as 90 per cent. The average amount cut is 50 per cent. In Brandon, Lyleton, Yorkton and Russell sections considerable damage from hot winds and rain storms is reported. Intense heat in these parts caused shrinkage but few sections are affected. Rain storms following the hot wave tended to lodge the heavier grain causing loss in places visited by it. There are enough laborers to harvest the immense crop, and these have been judiciously advised as to the places in need of men so that no sections have been neglected.

Premier Roblin got back from a two days journey through the grain fields with the grainmen's excursion. "There is no doubt whatever," said the Minister of Agriculture, "from my own observation and from reports that have reached my department that excessive heat has done quite a lot of damage to the crop. How could it be otherwise? Such heat as we had could hardly fail to scorch anything, to say nothing of wheat in the milk stage. However, I do not anticipate that the damage will be serious. Shrivelling may affect the yield two or three bushels to the acre, but we need not worry."

THE -GRILL CAFE-

We beg to announce to the general public that we have secured the services of one of the most up-to-date and competent chefs procurable. Mr. Jack Wolfe, who was for three years chief of the staff for Louis Davenport of Spokane. Call and try our

CUBAN REVOLT GAINING GROUND

Conflicts Reported From Several
Provinces.

Havana, Aug. 24.—Despite optimistic reports of officials, the revolution throughout Cuba seems to be gaining rather than losing ground. Fighting was reported from Santa Clara, Matanzas, Havana, and Pinar Del Rio provinces to-day, but details are few. It is asserted that revolutionists in Santa Clara, commanded by Carlos Mindieta, attacked a force of rural guards and routed them, securing their weapons.

Havana, Aug. 23.—Rebel forces scored the first victory before daylight this morning, when a force under General Pino Guerra attacked rural outposts at Pinar Del Rio and drove them back toward the city. The insurgents did not follow up the advantage as they are reported to be awaiting reinforcements, but concentrated their attack on a small force of loyal troops at Pinar Del Rio. Aid is being rushed to the government forces from Havana.

ry, there will be plenty of wheat. I am of the opinion that notwithstanding the injury estimates we have been making will be realized, as I am convinced the area under crop is larger than the figures that have been submitted from time to time."

Lashbrun, Aug. 24.—Harvesting is progressing favorably. The weather is clear and warm and no damage done by frost. There will be a good average yield of wheat and of oats. Vegetables are good crop.

Three Cars of IRON BEDS

Turnover At A Reasonable Advance

\$3,000

Will purchase a choice FARM with 80 acres in crop, one third of the crop goes with the farm. Good house, splendid water and well fenced. If you are looking for a good farm near Edmonton, ten miles out, go and see this proposition. You are sure to purchase. Terms \$1500 down and balance in six, twelve and eighteen months at 5 per cent.

\$47,000

Splendid block, McDougall Avenue, reasonable payment down and good terms. This property in two years will be worth \$75,000.

\$560

Choice building lot on Sutherland Avenue, get after this quick, or you will lose it. Half cash, balance six and twelve months.

\$15,000

Eleven lots on Jasper Avenue with buildings, here is another chance to make a few dollars quick. Have an interview with us and we will tell you all about it.

\$20,000

Will handle 150 feet frontage on McDougall Avenue near the post office; this is another one of our snags in the centre of the city. Reasonable payment down. Terms to suit the purchaser. The house on this property brings in good rent.

\$1500

Early, 2 View lots, and should the Parliament buildings be erected near the old H.B.R. Fort, these lots will be worth several thousand each. Easy terms.

\$1350

This is the amount required to purchase a nice corner position and two lots on Government Avenue close in. The reason of this sacrifice is on account of the owner having to make other payments which are past due.

\$7.50

Per acre, 30,000 acre situated immediately south of Birch lake in the Vermilion. Very small payment down and the balance to suit, nothing less than 10,000 acres sold.

In Farming Lands

We have some dandy propositions in well improved farms, and also in wild lands near the rail and City of Edmonton. It will be more satisfactory to use an ad to you if you will call and have a chat with us.

WANTED

School teacher, first or second class certificate, (male preferred) duties to commence at once. Apply stating salary. Willow Spring S.D. No. 124 C. E. Owen, Secretary Treasurer, Bon Accord Alta.

Semi-ready welcomes honest competition—even though such competition is but passing through its experimental mistakes.

It's the spurious kind of competition our customers have to guard against—that of the old-time ready-made clothier who thinks that all he has to do is to select a fancy name and advertise his old product as equal to "Semi-ready." This is the kind of fraud that hurts—it hurts the customer most, and sends him back to the last century method of buying clothes from the cloth roll. In this way it does not help us to prove the fact that the many who, to-day, want to be really well-dressed wear Semi-ready clothes.

Semi-ready tailoring is better than custom tailoring. We cannot persuade all our customers in Canada to see our shops and learn the reason why, but we give a written guarantee with every suit of Semi-ready clothes that this is so.

A \$15 Semi-ready Top Coat is real styling value—and it looks distinguished always.

SEMI-READY WARDROBE:

CORRESPONDENCE INVITED

Edmonton Branch : : H. A. GRAY, Agent.

REFINERY FOR CALGARY

Calgary Herald: In the near future the Calgary district will in all probability, receive another important addition to its rapidly growing list of big industrial enterprises.

The new enterprise will be a big sugar refinery and a 35,000 acre test farm in connection.

B. R. Nagatany, B.A., an educated and influential Japanese gentleman, was in Calgary this week making preliminary arrangements. Mr. Nagatany interviewed the C.P.R. land authorities here with a view of purchasing 35,000 to 100,000 acres of irrigated land, on which to place small Japanese farmers. A big sugar plant would be put in and probably other industries.

As the chief difficulty in growing beets in Alberta is the labor problem, the idea of Mr. Nagatany looks extremely feasible. He has gone to Japan to consult with colleagues there. He expects to enlist the co-operation of the Mikado.

NON-PARTIZAN ADMINISTRATION
(Calgary Alberta)

The Albertan referring to the favor conferred by the present administration upon the leader of the opposition, which the leader of the opposition accepted and quite properly so, commented upon the independent conduct of the present administration, something which is a matter of common conversation throughout the province.

The Edmonton Journal answering the editorial in the Albertan, refers to an incident in Edmonton, and attempts to show that the present administration is not so independent in its appointments as the people of Alberta believe it is.

The Journal says that a gentleman in Edmonton, a Conservative appointed under the Territorial administration as holder of marriage licenses, because of opposition to the administration at the last provincial election, was relieved of the paltry office.

The Albertan has investigated this complaint, and learns that the Edmonton Journal is quite incorrect. Two Edmonton men, both Conservatives, were issuers of marriage licenses, and had received such appointment under the Territorial administration. A third person was given the privilege of issuing marriage licenses, not by the Territorial Government, as the Journal states, but by the present Alberta administration. What the present administration gives the present administration can take away without being open to the charge of partisanship. The present government did not relieve the old officials, appointed by the Territorial administration, but the official appointed by themselves. That is not evidence of party prejudice. That is another evidence of non-party politics. The Albertan is informed that the action of the administration in cancelling the appointment of the recently appointed issuer of marriage licenses was not dictated at all by party reasons.

AFTER BRITISH WORKMEN

"The Canadian Manufacturers' association are considering the advisability of establishing an office in London, England, for the purpose of supplying Canadian manufacturers with a sufficient supply of labor." This statement was made to the Montreal Star by Mr. G. M. Murray, the assistant general secretary of the association. "We have requests for some six thousand men from different points throughout Canada, and labor is so scarce that it is impossible to supply the demand."

"The question of the establishment of an office in London will become of the important subjects discussed at the coming annual meeting, which will be held in Winnipeg next month. The establishment of this office in London has become a necessity owing to the reports sent abroad by Canadian organized labor to the effect that the Canadian labor market is already overcrowded, and to the lack of assistance the manufacturers receive from the government in the direction of a proper labor supply."

Should this office be established, and our expert sent over to run it, we certainly will not misrepresent anything. Even at the present time we are not encouraging anybody to come to this country. We want them to secure positions before they come here. Before leaving Canada this expert will make a personal visit to the factory throughout Canada, and carefully note the kinds of employment. In this manner he will know just what is wanted out here. Then, once on the other side, he will carefully select the mechanics whom he will send out here to positions which have been obtained before the mechanic leaves the other side.

"The manufacturing business in Canada is increasing at a considerable rate, and it is absolutely necessary that we have more skill labor to run the various factories throughout the country. We have on many occasions tried to secure men by applying to the labor organizations but without success; we could not get a man. This shows that the demand in excess of the supply in Canada, and we will have to look to the old country for an

MOVING A MOUNTAIN

The C.P.R. has now in hand one of the largest projects that that company has undertaken on the Lake Superior division since the railway was built, says the Port Arthur Chronicle. Near Fort Coldwell the line of the C. P. R. runs along the mountain edge. The rocks rise for hundreds of feet above the tracks, and from the lofty heights at times great boulders and pieces of broken rock tumble down upon the roadbed below. Fortunately none of these have come down as a train was passing or there would have been a great catastrophe. But the railway company has considered the situation so dangerous that it has decided to blow up almost the whole mountain. The work has been started and is under the supervision of W. J. Whitley. Holes are drilled in the top of the great mass of solid rock, and then heavily charged with dynamite. In one blast over 2,000,000 yards of rock were blown away. Over 500 men are employed in loading the rock on the trains to be taken away. In order that the traffic will not be stopped, the company has built a track around the scene of activity. When the work is completed all danger at that point will have been eliminated.

TO SEARCH FOR B RIED TREASURE

Once again a treasure-hunting expedition is headed for Cocos Island. The steamship Xema, a twin-screw, three-masted steamer of 446 tons net, owned by the City of Cork Steam Packet Co. has started from Gravesend, England, and her destination is said to be Cocos Island. She is in command of Capt. Grey, who made several trips to Cocos Island in his yacht Rose Marine. Earl Fitzwilliam bought the Xema in 1904 for use in the Cocos Island expedition, but found her too small for the purpose, and bought the Marlech, rechristened The Veronique of the Union Castle line. The Xema is magnificently furnished. Several women accompany the expedition.

Admiral Palliser, formerly of the Esquimaux naval station, was one of the leading spirits of Earl Fitzwilliam's treasure hunting party. He became infected with the idea of seeking treasure on Cocos Island when at Esquimaux, and it was at his suggestion the British cart went to seek his treasure.

Capt. Fred Hackett, who recently sought to organize a company at Seattle to sail for the island off the Costa Rican coast in a schooner, but found money did not come in too quickly, had gone to Cocos Island in the sailing schooner Aurora, on behalf of a number of Victorians and on his return, unsuccessfully, he brought as a passenger Mr. Charles Harford, an old Connecticut watchmaker, who brought with him a document written in Spanish which purported to be a concession from the Costa Rican government arranging with him to search for the buried millions of Cocos Isle. By virtue of this agreement a Costa Rican gunboat, the Turbell, was to have called every three months to bring him food, but the gunboat had failed to appear, and he took advantage of the calling of the Victoria to come to Victoria.

Mr. Harford telegraphed Harford to Admiral Palliser on board H.M.S. Imperieuse at Esquimaux, just before the warship, in company with the Amphion, was about to cruise in southern American waters. Both accompanied the admiral, and he went with the warship to Cocos Island, where Lieut. Lee and a party of over one hundred men was landed to deliver for the buried treasures, but with no result. After leaving the service some time afterward, Admiral Palliser went again to the island, having first Earl Fitzwilliam with the idea of seeking the treasure.

Capt. Hackett also made another trip going to the island with the brigantine Blackie on behalf of a company organized in Victoria, and he came back again without any of the jewels or doubloons.

Many are the searches that have been made from Victoria, San Francisco, Sydney, Panama, and Costa Rican ports, and there are stories of men who went with empty pockets from Halifax, and returned again via Panama, with a plenitude of coin, but no one has been positively known to have taken anything but disappointment from Cocos Island.

The tale is that the barque Mary Det was lying at Lima when the Peruvian city was being attacked, and the authorities put thirty millions of dollars' worth of treasure in jewels and gold and silver coin, etc., on board the barque in charge of Capt. Thompson, whose cupidry was aroused, and he sailed away and buried the treasure on Cocos Island, intending to return to seek it again. But the vessel, a Nova Scotia, barque, was pursued, and all hands made prisoners or killed. Thompson and a mate alone escaping by swimming to an American whaler. So runs the story. Both have since died leaving maps, one of which Capt. Fred Hackett is said to possess.

Mrs. Mary D. Hiltchcock, who wrote: "Two Women in the Klondike" and who was well known in Victoria and the north, was much interested in the story of the treasure, and recently wrote to Capt. Hackett, it is said, with a view to forming another company to

**Cures Rheumatism**

"I had an attack of Rheumatism—pains near my heart—which increased to such a degree that I became very anxious. I lost my appetite, and an intense itching or heating of the head made life miserable. I asked a druggist, was there nothing he could suggest that would help me, and he replied 'Why not try ABBEY'S SALT?'"

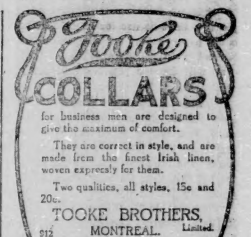

I did so, and can now state positively, and without solicitation that the Rheumatism has disappeared—my appetite is grand—and the itching of my scalp has ceased.

I suggested to my aged Father and Mother that they should try ABBEY'S SALT for their Rheumatism—and they tell me they have received immense benefit."

A LEAKAGE.

For several days past teams have been engaged in hauling unscreened gravel and filled low spots on city streets while a gang of men with wheel-barrows followed, picking out the large stones and heaping them beside the roadway where they were hauled away. This looks very much like unnecessary labor and expense. Had the gravel been screened at the pit the city would have been saved the expense of the wheel-barrow gang and of the removal of the stone piles from the streets. This may be a small item, but such items constitute leakage in the revenue and mark the difference between good and bad management.

A CENSUS COMEDY.

The Ottawa Free Press regales its readers with the following write up of the exchange of compliments in which Edmonton and Calgary have indulged over the census:

"It seems hopeless to believe that the rival cities of Calgary and Edmonton will ever agree upon anything. Jealousy forbids it. Their latest cause for disagreement is the census. The enumerators found that Calgary possessed only about three hundred more population than Edmonton although the pretensions of the former city were as many thousand of a lead in population. Charges and counter charges are in consequence being made by the newspapers of the rival cities.

"The Calgary Herald charges that the people of Edmonton joined together to try to boost the present census above that of Calgary.

"Edmontonians claim they can place their census above the figures marked down for Calgary, having discovered a graveyard that was not taken in at the last count.

"Calgary avows that its population is thousands larger than that of Edmonton and quotes the school returns as proof of the statement. An Edmonton paper replies that Edmonton is made up to a large extent of people who have no use for schools. The same paper calculates that with the present rate of increase that that city will have a population of forty thousand in a day or so.

"Unable to resist the temptation to keep out of the argument, the Calgary Eye-Opener ventures the opinion that the Edmonton population must have been computed on the same method as the Calgary Herald figures up its circulation.

"So bitter is the dispute that visitations between the people of the two cities is almost at an end. A score of delegates appointed for the Calgary I.O.O.F. convention in Edmonton hesitate to attend the gathering less they be enumerated in the Edmonton census, which, in the opinion of the Calgarys is still proceeding in the Alberta capital."

There are many variations in this resume from the facts of the case, but these may be forgiven on the ground that the Free Press' purpose was the entertainment of its Ottawa readers and

not the harmful misrepresentation of either Calgary or Edmonton. Almost anything is pardonable if its purpose be to lighten the pathway of those who sit in darkness and the Free Press may be counted blameless if it lapses somewhat from the truth in trying to send a ripple of pleasantry over the dignified monotony of life in Bytown.

Then, too, the Ottawa press has not much to crow about in the census showing of its own city and may be pitted but not censured if it tries to conceal the fact by poking fun at other people.

It is to be hoped, however, that the somnolent subscribers of the Free Press will recognize the attempted humor and not mistake the effusion as a plain statement of fact. Fearing otherwise we hasten to assure such as may encounter these lines that communications have not been cut off between the Alberta "rivals"; that so far as known neither has organized a punitive expedition for raising the other to the ground; that several well known residents of Edmonton who visited Calgary suffered no violence and that the Calgary delegates to the I.O.O.F. convention were not thrown into prison, denied the protection of the Habeas Corpus Act and held for ransom.

FAVORS THE PROPOSAL.

(Strathcona Plaindealer.)

President MacKenzie is not satisfied and neither are we. The former has made a proposition which at first thought is not very attractive; looks like paying too much for the whistle, but on second thought as a means to an end gives promise of great returns in value to the town. In making the proposition he does, Mr. MacKenzie has shown greater confidence in the future of Strathcona than we have if we turn it down. He represents the most enterprising and aggressive railway system in Canada to-day. He would not risk the cost of a line between Strathcona and Fort Saskatchewan if he did not believe the traffic would warrant it and if he is willing to take that risk surely we should be willing to put him in the way of doing so if it can be done without unreasonable cost. Mr. MacKenzie has assured us that the line he proposed will be operated to connect with main line trains both east and west for both freight and passenger service. We are bound to be given the same terminal rates as Edmonton because C. P. R. competition will compel them and they may also be a matter of agreement.

PERMANENT EXHIBITION

Where a Gentleman may see Every-thing Without this Without.

Semi-ready tailoring has reached so high a point of artistic excellence that the term sartorial art now belongs to the Semi-ready trademark. The Semi-ready wardrobe is a permanent exhibition of the best there is in this modern method of tailoring. Seeing the \$15, \$20 and \$25 Semi-ready suits is worth your while. You need not buy because you are continually striving after a distinct individuality of dress. The actors may help to spread the desire for a new style by appearing in summer scenes in the winter, but the changes in style are rather created by the man who wants some distinctive touch which is not too loud a departure from the prevailing vogue, but is still original. In the Semi-ready tailoring shops the extreme styles are tabooed, and yet there is always a distinctive touch about a Semi-ready garment. The Semi-ready Wardrobe is a permanent exhibition of garment which are correct in style and cultured in every part of their creation.

(ESTABLISHED 1886)

The Question of Children's Shoes

Is an extremely important one, as so many mothers know. It is sometimes very hard to get a shoe that will fit a child's foot properly, and often requires a large stock to choose from. We make a speciality of Children's Shoes, and as we carry a large stock we are usually able to find a shoe that will please our juvenile customers.

INFANTS' SOFT SOLE SHOES

In tan or black, 45c per pair, colors and white, 65c; and 75c pair.

CHILDREN'S SLIPPERS

We carry a good range of children's slippers; all sizes, and several different prices.

CHILDREN'S PATENT TIES

For dress wear, a very dainty patent tie; sizes 11 to 2, per pair \$2.00.

SHOE DRESSING

We carry only the best liquid and paste dressings, in all colors for black, gun-metal, tan, brown or white shoes, and will promise you that any dressing you buy here cannot possibly injure the finest shoe.

MISSISSIPPI SPRING HEEL SHOES

We show a special line of mississippi spring heel shoes, sizes 2-12 to 5, fine Dongola, with patent tip, \$2.50 and \$1.00 per pair.

INFANTS' MOCCASINS

Infants' fancy soft sole moccasins, in colors, 25c and 60c a pair.

CHILDREN'S BAREFOOT SANDALS

In an extra good make, all sizes, 5 to 10-12.

BOYS' LACROSSE SHOES

In a range of sizes 6 to 10, 11 to 12 and 1 to 5.

CHILDREN'S SCHOOL SHOES

We carry a line of Children's Shoes, made specially strong to stand hard, every-day wear.

KAYE SLIP SOLES

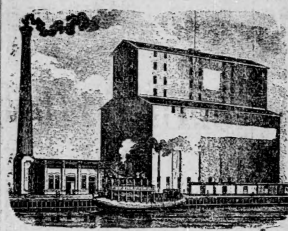

A large number of our Children's Shoes in the smaller sizes are made with a special sole that will not slip. This is a great advantage and costs no more than the shoe made with an ordinary sole.

YOUR INSPECTION

Of our shoe stock is invited at any time convenient to you.

AUSTRIA'S

INTEREST

Dr. Baumfield, a Philosopher From Vienna, is Touring the West, Studying Industrial Conditions.

Dr. Baumfield, a distinguished Austrian gentleman, who visited Edmonton last week, said on his return to a reporter of the Winnipeg Free Press:

"The points of view from which others see us are always intensely interesting, especially to the youthful and aspiring nation, which is generally a little self-conscious and feels a subtle pleasure akin to that of a high bred horse going through his paces, in fastening the eyes of the world upon its strenuous movements to obtain a leading place in civilization and industrial pursuits. He has a voracity for admiration and he often exacts it as his natural right."

Dr. Baumfield is a philosopher and a political economist who is making a more than cursory study of the problems of this new country. He is a member of the staff of the "Neue Freie Presse," Vienna, which is the most influential paper published in the German language; and he has commissions from the "Hamburgische Boersenhalle," a leading commercial publication of Hamburg, and also the "Hamburgischer Correspondent," a political journal under the influence of the German Foreign Office. Moreover, he is writing 15 full-page articles for the Sunday editor of the "New York Staats Zeitung," the organ of the American Germans. Dr. Baumfield estimates that, in all, he will publish some 100 articles on Canada's industrial development, and he appears to have a genuine desire to bring the superlative qualities of our country before the European nations of the old world. He spends part of his time in Vienna and part in New York.

"I find," he said, "that the people on the other side do not know anything about Canada and even in New York, the ignorance concerning it is absolutely astounding. They have no idea of the greatness of its future. It is true, they have heard that you have had beautiful crops, but that is about all."

"In comparing you with the United States, my impression is that you are in a similar situation to the States 50 years ago with these additional advantages: You have the benefit of technical and scientific progress of the past fifty years and further, the experience of the United States in the evolution of western civilization. So you are in an exceedingly fortunate position. I must confess, to, that your country is so good that, even if you are misgoverned, it would be impossible to ruin it, the natural forces of the country would rectify any misgovernance."

"Now, you have a very good and capable government. I had a very interesting talk with Sir Wilfrid Laurier and he impressed me very much. He is, without any doubt, a real statesman. I heard him speak in parliament. I listened to his great speech on the Sunday question; his last speech of the session. He combines French elegance and eloquence with the absolutely quiet English gestures."

"A man who impressed me perhaps a little more is the Hon. Mr. Fielding. His recent travel in Europe has given him a knowledge of European creations, which is very important for you here; because in a few years you will have got some millions of people from that continent. One feels that he has grasped the idea that out of Europe will come that which will solve the problems which will appear in the unfolding of your future. Mr. Fielding is not only very clever, but businesslike. I had an hour's conversation with him and we covered various problems. I noticed with pleasure that he has very sound conservative ideas. But, understand me, not conservative in a reactionary sense. He is, without doubt, a most stable politician."

"All that I have seen in connection with the government's administration has favorably impressed me. Although I am not sufficiently conversant with your laws to say whether they are better than the United States laws (where they have some very good ones indeed), still I feel that the judicial administration is much superior. Yours are not merely laws on paper; if an act is passed and published as a law it is accepted and impartially executed as the law of the land."

"Another matter which impressed me is the feeling of absolute security. It is natural to feel, in a new country, some misgivings as to pedestrian safety, but in my walks and drives with

my wife in lonely parts I never experienced the slightest tremor of fear that I should be molested. During the whole of my travel I have noticed no sort of disorderly conduct on the part of the people I came into touch with. I have seen hardly any drunkenness, not even in the mining regions."

"My tour was begun at Montreal, I went thence to Ottawa, stayed at Winnipeg (so that I am here a second time), and next touched at the more important towns in the West such as Calgary, Edmonton, Vancouver, Victoria, and Nelson. All these places are very prosperous and I think Vancouver and Edmonton especially, will in some future time play a very important part in the development of the country. In my opinion Winnipeg, Vancouver and Edmonton will be by far the most important cities in Canada; I have a feeling that they will be even more important than Montreal, because the whole country naturally gravitates westward."

"Of these cities, without doubt, Winnipeg has the greatest future, being geographically adaptable as the heart of the railway system of the Dominion—the central point for a combination which is, perhaps, destined in, say ten years, to become the greatest railway system in the world. Such a city must consequently develop in a marvellous way. Alongside these compelling circumstances you have a tremendous enterprising spirit. Take the case of this hotel. I will try to tell my people that such a hotel exists in Winnipeg, but, to tell you frankly, I do not know in what way to convey to them a credulous description of it. There are new hotels in New York, but you cannot find there a hotel in which the dining room and the hall cover so much space. If I state its dimensions and detail its appointments my friends in New York will say, 'Those men in Winnipeg must be foolish, because for a city of 100,000 inhabitants what is the use of such a hotel?' and the answer is that these large buildings, which are, perhaps, not absolutely necessary to-day, will be necessary in five years. You have a commendable foresight; you do not wait for prosperity to loiter towards you; you advance to embrace it."

Dr. Baumfield next dwelt upon the wonderful union of religious devotion and practical commercial sagacity. Here he felt that a person's religion did not conflict with social duty to the state; neither did religion circumscribe liberty, as was the tendency in Europe. The learned doctor commented, with antiquarian fondness, upon the evidences of the past in the interesting shanties, which represent a supplanted generation of pioneer work, traces of which will, in a few years, be entirely removed. Then he spoke of the survival of the old world Paracelsus in the smart quack who sells pills and coadjutors for every mortal ailment; and the competitive devotion of the street preachers; and the groups of kneeling forms on the brink of the footways. This evangelizing atmosphere stirred his imagination. In it he saw nothing foolish, in ten years, he feared that these scenes, which lent animation to the streets, would be chased away by the shadows of lofty structures and the modern whirl of a city in the front line of advancing civilization. At present, he said, Winnipeg could not be compared with any of the other western cities he had visited—Seattle and Tacoma. It possessed a characteristic atmosphere which was to be found, he thought, nowhere else. So he feared, with regret, that in ten or fifteen years all these fascinating elements would be extinct."

"From a commercial standpoint of course," he continued, "it will not be regrettable at all. You have a certain duty to fulfill towards your country, and that duty is, I may say, to become the largest and most important commercial centre in the whole Dominion."

"Now the only problem, which I cannot clearly see how to solve, is the labor supply. All over the country in the coast provinces, the mining districts, and the agricultural areas—I over hear the same cry. 'We could do much more that we have in the last few years if we had more help.' No doubt immigration will be larger from year to year, but I cannot see that under existing arrangements, the immigration will be so large as to meet your demands; because, I think, the development will be ahead of it, if you do not give the Asiatic people a chance to come over."

Dr. Baumfield proceeded to advocate the admission of Japanese, whose self-respect and standard of living would prevent them from becoming a menace to the interests of white workers. The Japanese, in common with the latter, and in contra distinction to the Chinese, would assert his right to a fair wage."

"If you can solve the labor problem

in the right way I can see no obstacle to your being in 20 or 25 years, one of the most important nations of the world. It is interesting and important, from the international standpoint, that there should be, on this continent, a second great power, and it will be deeply interesting to note how your development influences the ultimate destiny of the British empire. I, myself, think there will be a devolution of the power of the empire towards this part of the globe; and this western world will enter on more equal relations with the mother country. No doubt it would be a just and foresighted policy for the united kingdom to intimately concern itself in the progress of Canada, and the latter should be consulted on all the larger imperial questions—political and economical—which the empire has to solve during the next generation."

Dr. Baumfield, later, commented upon the excellent feeling of unity among Canadians, with whom, he said, religion was no impediment to progressiveness. He had conversed with many ministers of religion and he appreciated their tolerant spirit and their due sense of the real sphere of their churches. During his travels, moreover, he had not met one dissatisfied man, no matter how humble he might be; and everyone seemed to feel that he was working, not only for himself, but for the community amongst whom he resided. Small townships, even had a corporate spirit, and felt that it lay with them to make their town great and prosperous. The tone of the people was excellent."

Concluding, Dr. Baumfield asserted that, although many were coming in from the United States, the country could not be populated from that quarter alone. Europe must be more largely interested. The German banks and merchants had given millions and millions to Venezuela, Mexico, Brazil, and even to such doubtful states as Hayti, and, without doubt, if the people on the other side knew exactly what opportunities they had here there would be not only a large influx of men, but of capital, too, which was absolutely essential to the advancement of Canada. In order to advertise the country, he suggested that the International Press Association, which comprises the foremost journalists of all the civilized nations, should in the near future, be invited to hold their annual meeting here. (It meets in a different country each year.) This intercommunication promoted cordiality, as was exemplified in the visit of the German editors to London, and he was certain there could be no better advertisement."

WHITNEY'S SECRETARY KILLED

(Special to the Bulletin)
Winnipeg, Aug. 21.—Horace Waters, aged 21, private secretary to William White, second vice president of the C. P. R., was the victim who met death in the collision of the Winnipeg Beach train at Clerdbrook and whose identity was not known last night. He was a first cousin of Lord Mount Stephen. He was an elder in the Presbyterian church and took a keen interest in Agriculture. He was president for many years of the Viridian agricultural society and a liberal in politics. He leaves two daughters and a widow.

ONTARIO VILLAGE SUFFERED

(Special to the Bulletin)
Hillsbury, Ont., Aug. 21.—A destructive fire swept through here today wiping out everything in its path. Two local banks, two hotels, were burned and with other damage, caused a loss of over \$150,000. Insurance on the destroyed property amounted to about \$100,000.

FIRES IN NEW BRUNSWICK

(Special to the Bulletin)
Campbelltown, N.B., Aug. 21.—Forest fires are doing considerable damage in this vicinity and the air is thick with smoke. It is reported that the village of Caplan about 70 miles from Campbelltown with another settlement just back of it have been wiped almost out of existence. Meagre particulars are to hand but recently buildings have been destroyed and a large number rendered homeless. Damage to crops and timber lands is heavy. The fire is still spreading. Another fire is spreading near Dalmore's but has not reached the settlement although damage to lumber lands is considerable. Still another fire is raging and spreading rapidly to the back of Campbelltown near Sugar Loaf Mountain. The flames can be seen looping up the side of the mountain in three places.

WILL ADVANCE PASSAGE MONEY

(Special to the Bulletin)
London, Aug. 21.—A British church army proposes to send twelve thousand people to Canada in 1907 and to do so \$200,000 will be needed. This was not a purely philanthropic scheme for every one sent out has to sign a bond to refund the money advanced.

WHITNEY APPROVES THE ARMY

(Special to the Bulletin)
London, Aug. 21.—Sir J. P. Whitney, Premier of Ontario, speaking at Bath gave two reasons why he supported the Salvation Army, both in his individual and representative position: First, belief in the good influence of the Army and second because in its emigration work, instead of dumping emigrants down in the docks the Army saw them into situations. The Army had a smaller per centage of failures than any other organization engaged in the work. This being the truth he said the truth should be told. Mr. Whitney referred to the importance of the work as it affected Canada, which he described as the great auxiliary nation of the British Empire.

OFFICERS REDUCED

(Special to the Bulletin)
Portsmouth, Aug. 21.—The court martial which tried Capt. Thomas D. S. Blair and Lieut. James H. Datham, commander and navigating officer of British Battleship Montagu, which went ashore at Smiler Point Lundy Island on May 25 have severely reprimanded Capt. Blair and dismissed him from his ship and have severely reprimanded Lieut. Datham and dismissed him from his ship and deprived him of two years' seniority.

TRIED TO "SET FIRE"

(Special to the Bulletin)
St. Louis, Aug. 21.—In trying to imitate the "fire eating" trick of a

circus man today Johnnie Cottle, the 8 year old son of Mrs. Mary Cottle, filled his mouth with kerosene and set it on fire with a match. In a moment he was covered with flames. Mrs. Sarah Peterson who lives on the second floor wrapped a shirt about him and smothered the blaze, after which the boy was sent to the city hospital where his condition was pronounced serious.

WRECKED BY TIDAL WAVE

(Special to the Bulletin)
Honolulu, Aug. 21.—Four steamers failed to move the Manahua from the rocks. She is pounding on the reef and it seems certain the vessel will be a total loss. Passengers have been taken to Honolulu. Captain Saunders takes the blame for the disaster. The vessel was probably driven from her course by a tidal wave caused by the earthquake on the Chilean coast.

GRAIN PRICES

(Special to the Bulletin)
Winnipeg, Aug. 21.—No. 1 northern, 73-4; No. 2, 73-4; No. 3, 68; No. 2 white oats 59-4; No. 3 barley, 40; No. 1 flax 1.02.

BALL SCORES

Shiloh's Consumption Cure, the Lung Tonic, has been before the public, and this, together with the fact that its sales have steadily increased year by year is the best proof of the merit

Shiloh

as a cure for Coughs, Colds, and all diseases of the lungs and air passages. Those who have used Shiloh would not be without it. Those who have never used it should know that every bottle is sold with a positive guarantee that, if it doesn't cure you, the dealer will refund what you paid for it. Shiloh

Has Cured

thousands of the most obstinate cases of Coughs, Colds and Lung troubles. Let it cure you.

"Last winter I suffered for three months and thought I was going into Consumption. I took all kinds of medicine, but nothing did me any good, and finally I bought a bottle of Shiloh's Consumption Cure. Four bottles cured me. This winter I feel a very healthy man, and I am able to do my work as usual. I have given it to several people and they are all cured. I have been cured—D. J. Smith, 21, Toronto, Ont."

SHILOH

25c. with guarantee at all druggists.

"The 'Semi-ready' franchise in a town is as valuable as a public utility franchise." It gives the monopoly of merit in men's clothes.

Only one dealer in a town can sell the real "Semi-ready."

Dealers who did not get the franchise for the prosperous towns are sorry, though they declined it seven years ago on the ground that the profit fixed by the makers was a small one. They argued they could make bigger profits selling ordinary ready-mades.

The real profit in Semi-ready tailoring is the many sales made and the ease with which goods can be sold when the maker gives the guarantee bond found in every pocket of every Semi-ready garment. New customers of Semi-ready are regular patrons.

Overcoats for Spring at \$15 with just as good style and material as you usually pay \$35 for.

TOWN COUNCIL
Tuesday night—
A meeting of the town council took
place last night in the town hall.
All the members of the council were
present and Mayor Sheppard presided.
It was almost a foregone conclusion
prior to the council meeting that some-
thing of a final importance in relation to
the C.N.R. would take place, but unfor-
tunately for press representatives the
amount of business did not present any-
thing out of the common.

An application was read by the sec-
retary treasurer from R. Peterson,
secretary of the fire brigade committee,
Calgary, requesting the council to do-
nate \$100.00 towards the 14th annual
fire brigade convention which takes
place at Calgary on the 28th and 29th
inst.

The council unanimously decided to
acquiesce in this matter.

An application was tendered by H.
Pattison, chief of police, for an in-
crease of \$10.00 per month on his sal-
ary. After discussion the matter was
referred to the public works commit-
tee, to report at next meeting.

A communication from the Western
Financial & Realty Co., requesting the
council to insure against explosions,
was filed.

A long discussion took place with re-
gard to the delivering of water through-
out the town.

Ultimately it was agreed the sec-
retary be instructed to advertise for
tenders for the delivering of water
around the town.

The secretary read a letter from C.
W. Saunders stating that while driving
at a dangerous part of the road with-
in the town boundary, recently, his
buggy and horse had been damaged to
the amount of \$13.15. The matter was
referred to the public works commit-
tee, with power to settle.

The council decided to appoint Percy
A. Round as pound-keeper.

Thereports of the various committees
were then submitted to the meeting.

Councillor McKenzie gave prices per
cord for wood, &c., and the council
agreed to accept the Miller tender at
\$25.00.

Mr. Ahnen's offer of 40 acres of
land which is situated on the southern
boundary of the town 3500 per acre
came next under review.

The ground in question it was ex-
pressed by several members of the
council was an ideal location for man-
ufacturing and industrial purposes.

After a lengthy debate, Councillor G.
Douglas' motion in favor of adopting
the committee's report, and the sec-
retary be appointed to draw up a by-
law and get the citizens to vote on
it at an early date—the option to be ex-
tended—was carried unanimously.

The council had under consideration
the question of regulation height for
awnings and projecting sign-boards.

After discussion a motion was car-
ried to the effect that all projecting
sign boards be entirely removed from
streets.

The minutes of previous meeting were
read and adopted, while bills submitted
were also passed.

The council then adjourned.

ENGINEERS' EXAMINATION
An examination was held yesterday
by the Provincial Boiler Inspector, David
Fraser, in the town hall for candi-
dates who intend to qualify for steam
engineering certificates.

The following are names of candi-
dates:
T. C. Miller, David Ewart, Sam Lind-
say, Charles Gob, August Minco, Larry
Garneau, Alexander D. Truettner and
Minor Bates, Strathcona; C. E. Copp,
Jas. Chabot, Herbert Pailot, Alex J.
Nichols, Wm. Mead, Wm. A. Hendry,
Edmonton; Leo R. Courtwright, Ver-
million; Geo. A. Masfield, Nampa; A.
M. Yeat, Morinville; and Mitchell Al-
buzies, Leduc.

Provincial certificates—John Eno, H.
Santrock, Ned Horne, G. M. Santrock,
Edmonton; and Alex D. Truettner—
Strathcona.

Burch & Reiss pony and dog show
visited town today and was a decided
attraction for children.

Mr. Harold Mitchell, of Douglas Bros.
staff here left yesterday morning to
spend a vacation at Banff.

A train consisting of nine Pullman
cars, with sleepers and diners, left the
C.P.R. station here this forenoon with
a large number of grain men, bank-
ers and railway men, for Winnipeg.
The party who hail from Chicago, Min-
neapolis and Winnipeg came over the
C.N.R. and are touring Western Can-
ada and are making special note of
the grain prospects.

The funeral of Christopher Galle-
berg, the electric lineman of Strath-
cona, who died from the effects of in-
juries sustained by a pole falling upon
him, took place yesterday afternoon
at Strathcona.

The fatality which terminated Galle-
berg's life occurred under most dis-
tressing circumstances. He was work-
ing on the electric light line on Tues-
day afternoon when a pole on which
he was working fell, crushing him un-
derneath it. The unfortunate man never
regained consciousness and died a few
hours afterward.

Mr. C. Gainer of Gainer & Co. left
this morning for Vancouver.
The Stationery store of T. R. Tip-
ton is to be elevated about one foot
higher by W. H. Mac...
Lloyd Nettleton, Ivan Nettleton, Har-
old Myers and Frank Spicer left for

CRAFTS & LEE

Banff the other day taking a complete
camping outfit with them.

Rev. C. W. Corey conducted prayer
meeting in the Baptist church, and
there was a very enthusiastic meet-
ing.

Wednesday afternoon while Arthur
Baillie Hamilton, who is employed by
Page & Co. of Edmonton, on the con-
struction of the new steeple at St.
Anthony's Catholic church was work-
ing with a hatchet, he, in some un-
accountable manner, got his left hand
and arm very severely cut. Medical
assistance was summoned who dressed
the injuries.

Mr. Al. Woods who appeared before
Strathcona sports a week ago, an-
nounces that a glove contest will take
place in Strathcona on September 7.
Vic. Holbrook of Dayaland will be
Wood's opponent and the challenge is
for ten rounds for a purse of \$200.00.

Vic Holbrook, who is a professional,
has fought with the gymnasium in
Seattle, Washington.

Both men are at present under train-
ing, and as both men are well matched
as regards weight, and height the con-
test should be a keen, hard, and clean
glove fight.

City News

Local Items Around the City

—A daughter was born to Mr. and Mrs. R. R. Keeley on Monday, August 25th.

—Choir practice will be resumed in McDougall church tonight. A full attendance is requested.

—At the tent at the corner of Jasper avenue and Third street the following subjects will be discussed:—Friday, Aug. 25, "Is Man Mortal?" Sunday Aug. 26, "Will the Wicked Suffer throughout Eternity?"

—A car load of good work horses (mostly mares) will be offered for sale by auction at the Hudson's Bay corner tomorrow, Saturday at two o'clock p.m. The horses are all well broken and first class animals.

—Mr. P. Monaghan, separate school teacher, received a telegram from Victor, Colorado that his brother John had died suddenly. The body has been shipped to the old home in Prince Edwards Island. Mr. Monaghan left Wednesday to attend the funeral.

—Winnipeg Free Press:—Mr. C. Wilmut Strathy, now manager of the Canadian Permanent Loan Co. for Alberta has been appointed by the North American Life Assurance Co., as manager of their loan department for the west, and will have his headquarters in Winnipeg. He will enter upon his new duties on September 15th. Mr. Strathy is well known in Winnipeg.

—Miss Barnett has been added to the staff of the Provincial Normal School and will be in charge of Primary Work, Music and Drawing. Miss Barnett is a teacher of considerable experience, having been associated with Dr. Goggin for a number of years. She resigned her position in Dawson City to take up the Normal School work. Miss Barnett is recognized as one of the best teachers in the West.

—Mr. Alexander Smith, barrister, of Ottawa, is in the city. Mr. Smith was for a number of years secretary of the Ontario Liberal Association, and is one of the best known men of eastern Canada. He is now on a holiday trip throughout the west and will spend a few days in the city.

SOCIAL AND PERSONAL

Rev. J. A. Matheson, of On Lake's in town today.

C. B. Edwards, K.C., has returned from a visit to eastern points.

M. S. Schell, M.P. of South Oxford, Ont., is in the city.

Elias Rogers, the Toronto coal king was in town yesterday.

Mr. N. S. and Miss Jessie Stanville of Calgary are at the Windsor Hotel to-day.

James Rae, of Seaford, a brother of the principal of the high school is at the Windsor.

Dr. Ferris left yesterday for a two weeks trip from Vancouver and other coast cities.

A. E. Johnson, representing the Revistoke Lumber Co., is in the city, staying at the Windsor.

Mr. E. W. McCarthy, president of the McCarthy Supply Co., Regina, was a caller at the Bulletin office yesterday.

"Gus" Porter, member of the Dominion House for Hastings West, spent the civic holiday in the city, viewing the beauties of Edmonton.

Dr. McCrimmon of Kincardine, Ont., who has been visiting his brother, Malcolm McCrimmon of this city, returned to his home on Tuesday evening.

J. H. Woods of the J. H. Woods advertising agency, Toronto, and a brother of Sidney B. Woods, deputy attorney-general, was in town yesterday.

OLIVIA DAHL THIS EVENING

Miss Olivia Dahl and Miss Guiga Smith will appear at the First Baptist church this evening. Miss Dahl is a Norwegian singer of international fame. Her voice is one of peculiar charm, powerful, melodious and sympathetic. Her programme covers a wide range, a little of the classic, some folk love songs of Norway and a little of the old favorites that we always welcome. Miss Guiga Smith, her accompanist, is regarded as one of the most accomplished pianists on the circuit.

HIGH SCHOOL OPENS MONDAY

The city high school opens Monday with the same staff as during last term. There are prospects for a largely increased attendance, which may make necessary the addition of another teacher later in the term.

BALL TANGLE

ADJUSTED

Edmonton Team Leaves on This Afternoon's Train For Calgary.

Cow Punchers Here For Four Games, Ending Labor Day

During the last few days it looked like "23, Skidoo" to the ball business. Calgary, for some reason inconceivable to all except Calgarians, has been cross-hauling for several weeks back and apparently was bent on giving Edmonton the worst of it and disbanding their team.

In the first place, Edmonton arranged to go down for the first three days of this week, but Calgary—probably looking for something soft—took a Wetaskiwin for the dates originally arranged for Edmonton, and wired Edmonton that they would take the Capitals on for the last three days. Then it rained in Calgary and the Calgary management put the Wetaskiwin games over to the Edmonton dates again, standing Edmonton off for a second time, asking the Caps to come three days next week. About this time, seeing that the local team has not played since the 15th last, Manager Fields commenced to feel that the Calgarians were putting it over him a little and wired last night to say that Calgary was due in Edmonton next week and that they could come as per schedule or stay home, just as their conscience and conference dictated. Calgary refused to do business on this basis and it looked like an impasse when the Albertan in Calgary stepped in and wired the Bulletin to try to adjust matters. The following is Editor Davidson's wire:

Calgary, Alta., Aug. 24.—Edmonton Bulletin, misunderstanding existing between Edmonton and Calgary ball teams. Weather conditions prevented Edmonton being entertained here this week. Calgary cannot play seven straight games in Edmonton before Edmonton coming here. Edmonton has not been here for four weeks. Calgary wants Edmonton to come here Saturday, Monday and Tuesday. Will then go north four days including Labor Day. Misunderstanding ruins baseball. Can't we arrange this compromise. Answer—Davidson.

When Manager Fields was consulted he took the stand that Calgary already broken a string of dates and that if they were to be counted on to fill their next they should be willing to post a forfeit to that effect. Consequently the following wire was sent:

Edmonton, Aug. 24.—Davidson, Albertan, Calgary, Edmonton will play in Calgary Saturday, Monday, and Tuesday providing Calgary puts up forfeit of \$225 to guarantee that they will give us four games in Edmonton as per our wire.—Bulletin.

In answer the following was received:

Calgary, Alta., Aug. 24.—Bulletin Edmonton, Calgary will play four games. Edmonton advise if team leaves this afternoon.—Davidson.

The message being somewhat indefinite, as it promises nothing, the following was sent to sort of clinch the Edmonton position:

Edmonton, Aug. 24.—Davidson, Albertan, Calgary, Team leaves on afternoon train to-day on terms of message wired by Bulletin.—Bulletin.

There was some lively hustling on the part of the ball boys to get away on the afternoon train, and if Calgary comes through with their forfeit the first of the season will be played tomorrow. As Calgary does not want to see the ball business fall through, it is altogether probable that they will post their forfeit, thereby guaranteeing four games here for Thursday, Friday, and Saturday next and Labor Day.

Calgary defeated Wetaskiwin yesterday by 6 to 0, and thereby revived their drooping spirits a little.

LADIES'

FALL COATS -- FALL COATS

--- AT THE ---

Hudson's Bay Stores.

The sharp chilly weather which we have been experiencing this last few days has created something like a "boom" in ladies coats.

That large shipment of samples and exclusive styles which we recently received is disappearing very fast. Secure your coat now before they are all gone.

Some beautiful styles in Grey Tweed mixtures, trimmed with colored velvet are still to be seen in all sizes.

A few exclusive styles in ladies fur lined coats, made in Brown, Green Blue and Black with mink, fox or sable collars and lined with white squirrel, grey squirrel or rate. These goods are decidedly choice, and ladies contemplating buying a fur coat this season, would do well by purchasing now.

Remember--The FIRST shipment of FURS is always the BEST, and the BEST always go FIRST.

Hudson's Bay Company.

--FURS--

Now is the time to have your furs repaired and altered. The Edmonton Fur store is now prepared to do all kinds of work in that line in a first class manner. All work is guaranteed satisfactory. Don't wait for the rush.
